**Paul Davis of Pasco donates restoration and repairs to
Hernando County Fire Rescue Fire Station #5**

Odessa, Florida – September 3, 2017 – [Paul Davis of Pasco](#), a leading provider of water, fire and mold damage cleanup and restoration services for residential and commercial properties, is donating its expertise and services, labor, and supplies to Hernando County Fire Rescue for fire station repairs. Paul Davis’ vendors and subcontractors also participated in the job.

According to Rick Dannenmiller, owner of the Paul Davis office, the fire department was moving forward with repairs to Fire Station #5 at 9490 Eldridge Road in Spring Hill. The fire station is a mobile home that is being used as a temporary facility until a permanent fire station is completed. The mobile home has been used previously in this way and therefore has some years on it.

“During the County’s bidding process of selecting a contractor to complete the fire station’s much needed repairs, Paul Davis came forward and offered a bid to complete the needed repairs free of charge, as a donation to our extremely valuable first responders,” said Dannenmiller. “We are calling this our Paul Davis Hometown Heroes Project,” he said.

The repairs at the fire station began on September 1 and are now completed with repairs to flooring substructure, new flooring, insulation, and interior painting, among others. Fire crews were able to continue work at the location and were ready for calls during the construction project. The local Paul Davis office is located at 2512 Success Drive in Odessa and has served customers in Pasco County since (year?).

Paul Davis technicians are licensed restoration and emergency response professionals who provide technologically advanced services for property owners at home or business. All restoration team members are certified from The Institute of Inspection, Cleaning and Restoration Certification (IICRC), along with numerous other accredited industry organizations.

###
